

# Sergey Brin: Groundbreaking Google Founder (Gateway Biographies)

Sergey Brin is a computer scientist and entrepreneur best known for co-founding Google with Larry Page. Brin's groundbreaking work in the field of computer science has revolutionized the way we access and use information. This biography provides an in-depth look at Brin's life and accomplishments, from his early years to his role in building one of the most successful companies in the world.

Sergey Brin was born in Moscow, Russia, on August 21, 1973. His parents, Mikhail and Eugenia Brin, were both mathematicians. Brin's family emigrated to the United States when he was six years old. He attended the University of Maryland, College Park, where he earned a bachelor's degree in computer science and mathematics. Brin then went on to Stanford University, where he earned a master's degree and a PhD in computer science.

In 1995, Brin met Larry Page while they were both PhD students at Stanford University. The two began working on a research project that would eventually become Google. Google's search engine was designed to rank websites based on their relevance and popularity. Brin and Page's algorithm proved to be far more effective than other search engines at the time.
